

BREATHE NEW LIFE INTO YOUR CURRENT AND TRUSTED DISPERSER

Work with Schold to upgrade your worn out variable speed pulley drive system to a variable frequency drive (VFD) configuration. Old variable speed pulleys are loud, expensive to repair/replace, and provide limited speed range adjustment. Give your disperser a new lease on life by converting to a VFD drive system and enjoy **lower operating and maintenance costs, quieter operation, and more precise control over blade tip speeds.**

WHY CHOOSE SCHOLD

A trusted name since 1949, **Schold** has made breakthroughs and improvements, but one thing has held true—we have continually remained a **client-centric solutions provider.** While we offer a variety of standardized machinery models, we will also work with you to design, fabricate and install entirely **customized solutions** based on your application needs. Beyond installation, it is our commitment to provide unparalleled customer service. You can count on **Schold** for more than just reliable equipment, you can count on us to be a **trusted partner to your business.**

Left: Explosion-proof, four-push button station

Middle: Non-ex station with digital display

Right: Remote-mounted VFD control

BETTER DISPERSIONS.
