

THE SCHOLD PM PROGRAM IS TAILORED TO YOU

Proactively perform maintenance, repairs, and replacements to prevent future failures before they turn into machine downtime. You pick the service date, PM interval, and machines to be included in the program, and we send a Schold certified technician to evaluate your machines and perform the necessary maintenance. You are covered by the experts - they will note potential safety issues, urgent repairs needed, and possible future modes of failure. After the inspection is finished and maintenance has been performed, the technician will give you a report of their findings. Then we will put you on our calendar and let you know when your next visit is coming up.

PRIORITY SERVICE

All active members in the Schold PM program receive priority service in our queue. Not only do you save by avoiding downtime, but you get to jump to the front of the line when you require on-site assistance.

WHY CHOOSE SCHOLD

A trusted name since 1949, **Schold** has made breakthroughs and improvements, but one thing has held true—we have continually remained a **client-centric solutions provider**. While we offer a variety of standardized machinery models, we will also work with you to design, fabricate and install entirely **customized solutions** based on your application needs. Beyond installation, it is our commitment to provide unparalleled customer service. You can count on **Schold** for more than just reliable equipment, you can count on us to be a **trusted partner to your business**.

**BETTER
RELIABILITY.**
